Base Administration Fees		
Pre-Payment Integrity	30% shared savings	CDPHP utilizes internal resources and external vendors and solutions for post-service prepayment integrity programs which include, but are not limited to modifier validation, correct coding edits, and medical record reviews. These programs are designed to assist in complying with claims payment integrity policies and focus on controlling costs, reducing claims billing errors and promoting claims data accuracy.
Post-Payment Integrity	30% shared savings	CDPHP uses both internal and external resources including nationally recognized vendors for post-payment integrity activities and programs which include, but are not limited to data mining, coordination of benefit procedures, subrogation services, credit balance audits, claim accuracy verification, and billing verification.
Non-Participating Provider Pricing Negotiation	30% shared savings	CDPHP utilizes internal resources and external vendors to negotiate pricing on non-participating provider claims.
Inbound/Outbound File Integration	\$2,000 per file per vendor	One-time implementation fee for any new file feed set ups.
New Group Implementation Fee	Based on complexity	Basic (\$2,500) - standard rules/policy, no carveouts, no file feeds Complex (\$5,000) - carveout, third-party vendor(s), up to two file feeds (\$2,000 for each additional file feed) Domestic network (\$10,000) - includes Complex + Domestic network set-up <i>All levels include custom ID cards if required during initial group implementation, assuming no waiver of fees.</i>
